

REMARKS

This amends the specification to include a specific reference to the earlier filed PCT and provisional applications.

Claims 1-67 were cancelled and claims 68-130 added. The new claims are fully supported by the original claims and specification.

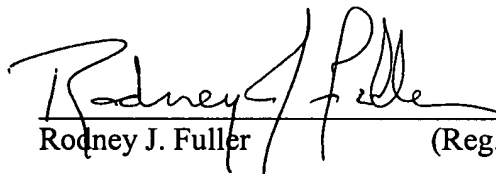

In addition, the Sequence Listing in paper and computer-readable form are fully supported by the Sequence Listing Submitted in the PCT application. The Substitute Sequence Listing was merely submitted for convenience.

No new matter has been added. Thus, entry of the amendments at this time is respectfully requested.

Respectfully submitted,
